WHY GOLD & SILVER

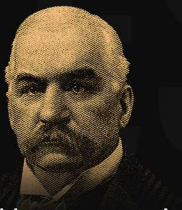

GOLD AND SILVER HAVE PROVEN THEIR STRENGTH THROUGH EVERY MAJOR FINANCIAL CRISIS, FROM THE 2008 MARKET CRASH TO THE COVID-19 PANDEMIC.

When stocks fell and currencies weakened, gold and silver continued to hold and even grow in value.

Gold provides stability and protection against inflation. Silver, on the other hand, offers incredible growth potential, often outperforming other assets during recoveries.

Together, they bring balance, security, and peace of mind to your portfolio.

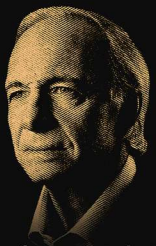

Gold is money and
